Bekasi, West Java (Available full-time from Aug 2025 - Nov 2025)

A second-year Informatics student at President University, specializing in Cyber Security, with a strong passion for both web development and cybersecurity. I have designed and deployed my own website using HTML, CSS, JavaScript, Node.js, MySQL, and Firebase. Academically, I've gained hands-on experience in digital forensics, network analysis, and risk assessment. Beyond academics, I actively participate in campus events to develop soft skills, expand my perspective, and stay engaged with the student community. Known for being trustworthy, hardworking, open-minded, and collaborative, I'm eager to contribute to secure and innovative digital solutions while continuously learning and growing.
